Dear Sir

We would like to bring to your attention a complaint reported from the Govt. General Hospital, Thrissur, regarding the Manual Ventilator Medisys Therapy Vent manufactured by Premier Medical Systems and Devices, New Delhi, bearing serial number MT060031 (Barcode: 0812861).

The equipment was installed on 11/01/2007 and is now over 17 years old. It has recently experienced mechanical failures and issues with various spare parts, such as valves, connector, mixing chamber, flowvalve, solenoid valves, pu tube set, and gauges. Upon further inquiry, we have learned that this particular model has been declared as end-of-life due to its prolonged use. Additionally, the ventilator is now considered outdated technology and may no longer meet current medical standards or guidelines. It lacks support for new ventilation modes and advanced features required for patient care. The ventilator is also unable to meet the current demands of the hospital, such as insufficient ventilation capacity for certain patient populations.

Considering the current requirements We kindly request you to provide the end-of-life letter for this equipment at your earliest convenience.

Hospital - GH THRISSUR

equipment - manual ventilator

make - premier medical system

model - Medisys&Therapy vent

SN - MT060031

barcode - 0812861

Thank you for your prompt attention to this matter.

With Regards,

BIJO T JOY
